Data Analytics Graduate at Thinkful

Oakland

Summary

I am an aspiring Data Analyst proficient in MS Excel, SQL, Tableau, and Python. I have more than ten years of professional experience in Healthcare data analysis, which has allowed me to develop my Data Analysis and research skills. My goal is to join a Healthcare Data Analytics team.

- Software Skills - MS Excel, MS PowerPoint, SQL, Tableau, Python, and SPSS
- Technical Skills - Data Exploration, Data Cleaning and Extraction, Data Analysis, Data Modeling, Data Visualization, and Data Presentation

Experience

GardaWorld
Security Officer
July 2017 - Present (4 years 1 month)
San Francisco, California, United States

- Conducted security and emergency life safety activities, and followed building post orders and communications.
- Coordinated with the team and communications, provided efficient customer service, and utilized MS Outlook and its calendar, camera systems, and company webpages to execute security activities.

FHI 360
Technical Officer
January 2010 - November 2015 (5 years 11 months)
Addis Ababa, Ethiopia

- Executed Healthcare Data Analysis, Monitoring, Evaluation, and Reporting activities
- Conducted surveys - developed protocol, pretested, trained, and supervised data collection and data entry, cleaned data and analyzed using SPSS, and prepared report and presentations
